EXPERIENCE

Data Analyst Intern

Sept 2025 – Nov 2025

Ostwal Group of Industries

- Cleaned & validated **8,000+** **production & inventory records**, enhancing data consistency for operational reporting
- **Performed EDA** on production & inventory data to identify trends, & quality issues, supporting senior analysts' reporting
- Collaborated with **cross-functional teams** to reconcile production and inventory data, improving reporting accuracy

Web Developer & Data Analytics Associate

Apr 2023 – Apr 2025

Indian Society for Technical Education Gwalior

- Developed the ISTE MITS website, managing **450+** member records & **10+** technical events through a centralized database
- Validated, cleansed, and de-duplicated **500+** records, maintaining **99%** data accuracy and improving database integrity
- Built automated Excel dashboards to monitor **450+** member registrations & **8+** event KPIs, reducing reporting time by 40%

Data Analytics Associate

Apr 2023 – Jan 2024

Institution of Electronics and Telecommunication Engineers Gwalior

- Analyzed **1,500+** registrations across **20+** technical events to identify engagement patterns & high-value participants
- Performed **EDA** on registration data, revealing participation trends & event-wise engagement for strategic planning

Business Analytics Associate

Feb 2024 – Jan 2025

Startup Cell, MITS Gwalior

- Analyzed **5+** startup pitches, identifying market gaps & revenue opportunities to support mentorship and funding decisions
- Built **3 Excel/Power BI dashboards** tracking startup KPIs, enabling data-driven operational & strategic decisions

PROJECTS

Impact of Global Conflicts on the Crude Oil Economy | Finance club MITS

May 2026 – June 2026

- Analyzed India's crude import strategy, highlighting **2% to 44%** Russian import growth & **15.9%** reduction in import costs
- Quantified impact of **\$10/barrel** crude increase on **0.49%** inflation & **43** basis point fiscal deficit expansion through modeling
- Developed **energy risk mitigation strategies** using supplier diversification, strategic sourcing, & layered hedging

Meridian Autonomous Consumer Intelligence Agent | Self Project

March 2026 – April 2026

- Developed an **autonomous intelligence agent** using **LangChain** and **Tavily**, synthesizing 8+ sources into analyst reports
- Engineered **4-node pipeline** (Tracker Classifier Analyst Reporter); classifies each article **across 5 dimensions**
- Self-reflection node scores completeness on 3 criteria; reduced redundant output by **35%** across **15** D2C and FMCG runs
- Deployed via **Streamlit**; structured output across 4 report sections with markdown and PDF export

Optimizing Air Travel Through Flight Delay Prediction | Society of Business, MITS

Jan 2026 – Feb 2026

- Analyzed US flight data to uncover key delay drivers, showing carrier & late aircraft as major controllable disruptions
- Built predictive models (**Random Forest**) with **88%** variance explained, enabling forecasts of delay likelihood & duration
- Designed an Operational Adjustability Index to prioritize controllable delays, significantly improving model stability by **8%** and providing detailed, actionable recommendations for airlines to proactively reduce delays by **30%**

Digital Lending: Portfolio Optimization | Consulting & Analytics Club, IIT Guwahati

Nov 2025 – Dec 2025

- Classified **3,900** customers, identifying **\$15.36/transaction** margin difference between promotional & organic buyers
- Profiled high-value customers (**\$82.3** avg spend, **33.7%** repeat purchases) into a copy-ready acquisition targeting brief
- Designed phased promotional sunset; projected **\$4,712** net margin recovery at **25%** attrition threshold
- Engineered **9** behavioral features (Engagement Score, Value Tier, Promo Dependency); identified subscription promo correlation redefining loyalty classification.

ACHIEVEMENTS

- Secured **9th** position in **Smart India Hackathon (SIH) 2024** among the top **100+** participating teams.
- Led a **5-member** team to secure **1st** Runner-up at **HackOrbit 2025**, presenting an AI-powered healthcare solution.
- Achieved **AIR 8899** in **GATE 2026**, demonstrating strong engineering aptitude.

EDUCATION

• **Madhav Institute of Technology and Science, Gwalior**

2026

B.Tech in Electrical Engineering

CGPA: 7.43

TECHNICAL SKILLS

Programming: Python, MySQL, PostgreSQL, C++, JavaScript

ML Libraries: Scikit-learn, TensorFlow, PyTorch

Web Development: HTML, CSS, SCSS, Tailwind, React.js, NEXT.js, Express.js, Django, Flask

Tools: Jupyter Notebook, MS excel, Git, GitHub, Docker, Power BI, tableau

Concepts: Machine Learning, Deep Learning, Natural Language Processing (NLP), Computer Vision
